

2008 EQIP Activity Sheet: EAS 590-6 Nutrient Management with Precision Technology Equipment

Minimum Criteria to Qualify for the Nutrient Management with Precision Technology Equipment Incentive

Purpose: To allow GPS-enabled yield mapping, within the Nutrient Management (590) conservation practice standard.

Note: This incentive applies only on tracts having no fields where precision technology equipment has been used to collect GPS-enabled yield data prior to signing a contract.

General Criteria:

- The incentive applies to fields on which yield data are collected using harvesting equipment with a yield monitor and equipped with a Global Positioning System (GPS) receiver.

Documentation Required:

- Dated yield maps with an appropriate legend.
- Certification that requirements of the Nutrient Management (590) conservation practice standard were achieved. The individual certifying completion of the practices required by this incentive must complete and sign the MO-CONS-10 (<http://www.mo.nrcs.usda.gov/technical/forms/general.html>) or an equivalent form.

For additional information contact your local USDA Service Center.

The United States Department of Agriculture (USDA) prohibits discrimination in its programs on the basis of race, color, national origin, sex, religion, age, disability, political beliefs and marital or familial status. (Not all prohibited basis apply to all programs). Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotope, etc.) should contact the USDA TARGET Center at (202) 720-2600 (voice and TDD). To file a complaint, write the Secretary of Agriculture, USDA, Washington, DC 20250, or call 1-800-245-6340 or (202) 720-1127 (TDD). USDA is an equal opportunity employer.
